

Stuntman Movie Making Challenge

Your chance to see how they do all those tricky manoeuvres in the movies

Certain moments in cinema history have styled the stunt industry into an iconic and dynamic profession. Now it's your turn.....

With a professional camera crew, make-up and special effects artist you will be taught the various disciplines of stunt movie combat. This encompasses hand to hand and martial arts fighting, sword duel techniques and the ever popular movie shatter glass from two of the industries most highly regarded stuntmen. With the aid of costume, special effects make-up and movie blood, you will work towards recreating fight sequences from action blockbusters such as 'Reservoir Dogs', 'Blade' and 'Under Siege'. All captured by the film crew and instructed by the Director and Stunt Co-ordinator, you will be the stars of your very own action movie.

Disciplines: High Falls/Stair Falls**, Martial Arts Combat, Hand to Hand Combat, Sword & Street Fighting Techniques, Movie Props and Tuition, Stunt shatter glass, Explosions and Stunt Falls**, Bullet hits**, Wire Work**.

After the groups have tasted the all the disciplines, they are then given a storyboard of an action sequence. In this session, it's 'Lights, Camera...Action' There will be a wardrobe and make-up call and then the groups get to block, rehearse and shoot an action sequence. The intention is for the teams to create the movie as much as possible themselves. The Stunt Team will obviously be present at all times, but would take the role of advisors and 'trouble-shooters', rather than run the PM session.

This event has been designed to give the following key benefits:

'Once in a lifetime' day, learning of new skills, team awareness, overcoming personal hurdles, boundary extension, 'team closure', end result - 'their film', trust and communication.
